DynaPel and Salient Systems signed Distribution agreement for US Market

New York / Austin, Texas, February 6, 2003. DynaPel Systems, Inc., a leading developer of intelligent video solutions, today announced that it has signed an exclusive distribution agreement for its CCTV-Video-Surveillance products with Salient Systems Corporation, a leading video systems manufacturer and distributor for the US CCTV security market.

Headquartered in Austin, Texas, Salient is a strong distribution partner with established relationships to leading CCTV dealers and integrators in the North American territory. Salient has more than 1,000 installations with their own branded iView™ digital surveillance and recording system. The Salient CCTV dealer and integrator network establish a basis with great potential for DynaPel's new CCTV-surveillance products.

Salient will distribute and support the complete DynaPel product line, including the SteadyCCTV™, CloseView™ and AlarmView™ appliances to CCTV dealer channel in the US. DynaPel and Salient will show the new CCTV products at the ISC West security show in Las Vegas from March 26. – 28 at booth #3112S and #2096S

DynaPel's SteadyCCTV™ actualizes real-time stabilization of shaky surveillance video, while CloseView™ enables unattended security CCTV systems to automatically detect and zoom in for close-up video shots of moving objects (e.g. cars or people), yielding high-resolution recordings of details such as faces or license plates. The AlarmView™ appliance provides indoor and an outdoor automatic real-time video motion alarms.

“We are happy to win Salient Systems, as they are a very professional company with a strong technical, marketing and sales background in the US CCTV video market”, said Dieter Kondek, President and CEO of DynaPel Systems, Inc.

Mark Ellsworth, VP Sales and Marketing of Salient added: “It is a pleasure for us to offer the innovative and intelligent video solutions from DynaPel to our customers. Both companies have also agreed to co-develop new solution oriented CCTV products in the near future.
